SUMMARY

Flutter and Frontend Developer with strong fundamentals in UI development, state management, and REST API integration. Experienced in building responsive, scalable mobile applications using Flutter and Dart, with clean architecture and reusable components. Strong problem-solving background with hands-on project experience and version control workflows.

SKILLS

Frontend / Mobile: Flutter, Dart, Material UI, Responsive UI, REST APIs
State Management: Provider, Riverpod (basic), setState
Backend & Data: Firebase (Auth, Firestore), SQLite, JSON
Programming: Dart, Python, SQL
Tools: Git, GitHub, Linux, VS Code, Android Studio

PROJECTS

Flutter Task Manager App — Jan 2026 – Present
GitHub Repository

- Built a Flutter-based task management application with CRUD operations and clean UI.
- Implemented Provider for state management and local persistence using SQLite.
- Designed reusable widgets and followed clean separation of UI and business logic.
- Focused on performance optimization and responsive layouts across screen sizes.

Flutter News Application (REST API) — Nov 2025 – Dec 2025
GitHub Repository

- Developed a real-time news application using Flutter and public REST APIs.
- Implemented API integration, JSON parsing, pagination, and error handling.
- Used Material UI components with dark/light theme support.
- Applied MVC-style separation to improve maintainability.

EXPERIENCE

Summer Research Intern — NIT Rourkela — May 2025 – Jul 2025

- Worked on data-driven applications involving real-time visualization and UI dashboards.
- Built interactive data displays and monitoring interfaces for sensor-based systems.
- Collaborated with researchers using Git-based workflows and documentation standards.

EDUCATION

B.Tech in Computer Science — RGUKT Srikakulam — Expected Apr 2026
CGPA: 8.5

CERTIFICATIONS

Kaggle — Python Programming, Intermediate Machine Learning
NPTEL — Deep Learning; Introduction to LLMs (Elite)
